CHILD SAFETY POLICY

Statement of Belief:

Cranbourne Secondary College is a school that is totally committed to the care, safety and wellbeing of its students. The College has a zero tolerance to child abuse. The school's commitment to the community is to develop respectful, responsible and safe learners with a vision based on the holistic education of our students. We seek to ensure that all students reach their academic, social and emotional potential, within the school's Positive Behaviour Support framework.

The purpose of this policy is to outline Cranbourne Secondary College's commitment to the care, safety and wellbeing of our students. It provides information on the procedures we have in place to ensure student safety at school, online or whilst participating in any school related activity. This policy has been developed in line with **Ministerial Order 870** and applies to all members of the College community including Teachers, Educational Support Staff, Contractors (employed by the school or the department) and volunteers.

All staff working with students in this school have a moral and legal obligation and a duty of care to protect any child under their care from reasonably foreseeable harm (not just staff who are classified as mandatory reporters).

The school takes its responsibility seriously to provide protection and support from bullying, child abuse and sexual assault. It also responds appropriately to abuse, neglect or sexual assault. All staff abide by mandatory reporting requirements. The school provides access to counselling support, pro-active school programs and support units and agencies in the community as appropriate.

General Principles

1. The College policies and procedures are compliant with the relevant legislation.
2. All students have the right to attend a learning environment that is safe caring and looks after their wellbeing.
3. All students have the right to an education that is aimed at maximising their individual potential.
4. All adult members of our school community including teachers, educational support staff, parents, contractors and volunteers have a responsibility to protect students from harm. To effectively screen, manage and supervise any visitor to the school, procedures have been established to record and monitor all visitors.
5. All staff at the school are familiar with the Code of Conduct which outlines acceptable and unacceptable behaviour as well as the School Child Safe procedures. These are available on our website.
6. All members of the College community are expected to report to school Principal Class Members and the Student Wellbeing team any concerns regarding child safety with the knowledge their concerns will be taken seriously and they will be supported to follow the Four Critical Actions.
7. In situations where harm has been disclosed or is suspected, those involved will be provided appropriate support and treated with sensitivity and respect.
8. Principals can declare and ban harmful items from school premises, or in the possession of students at school or when engaged in teacher supervised activities. Principals and authorised teachers have the power to search for and seize these items.
9. The College believes that the education of its students is a partnership involving students, parent's/carers and teachers and actively encourages all parties to be involved in the decision making process.
10. The College embraces its cultural diversity and (has zero tolerance for discrimination) promotes the cultural safety, participation and empowerment of Aboriginal and Torres Strait Islander students as well as students from a wide range of culturally and/or linguistically diverse backgrounds.
