

Enabling them to develop

At Cranbourne Secondary College our focus is on providing an exciting learning environment that enables all students to grow both academically and personally.

As students' progress through the College, the range of subject choices and pathways opportunities expands to support all students to deepen areas of passion and interest while also providing opportunities to develop new skills and knowledge.

Our focus on personal growth is underpinned by a teaching and learning framework that builds student skills in relation to making positive choices in both their personal and academic growth.

All of this exists in a culture of high expectations for learning and behaviour. At Cranbourne Secondary College we are safe, respectful and responsible learners.

Our College includes outstanding facilities across curriculum areas as well as student support services.

The facilities in STEM, Technology, Performing Arts - including a vibrant Community Theatre - and our Visuals Arts wing are outstanding and provide an environment that inspires success.

Our outdoor spaces include excellent access to sporting equipment as well as lunch-time clubs and activities. The College will also soon be home to a new two-court, 1000 seat stadium set for completion in early 2022.

The College has a strong academic record in terms of results and university access and continues to provide an extensive range of VCE options for students. Our range of subjects at VCE encompasses all Sciences, Mathematics and a broad range of the Humanities.

The College also provides access to VCAL

Our College includes outstanding facilities across curriculum areas as well as student support services. 236517

with a broad range of Vocational Education and Training Pathways with excellent links to both TAFE providers and local businesses.

The College also offers an Academic Excellence Program for Year 7 students that focuses

on deepening understanding and extending aspirations of students.

This program extends our students academically by deepening their curriculum skills and knowledge. Details of how to apply for this

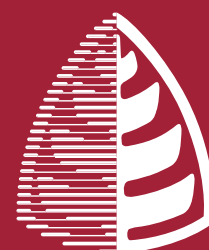

program are released via our website.

Our holistic approach to educating students provides the skills, knowledge and experiences that equip them for success through their time at the College and beyond.
