

# Best start in life offered

I am Learning is the newest childcare centre to open in Cranbourne North.

Team members at i am Learning are highly qualified and passionate and believe that every child in their care should feel safe, happy, supported and valued. I am Learning believes in fun, understanding, integrity and accountability.

Their vibrant learning programs for nursery, toddler and preschool-aged children encompass a whole person approach that is innovative learning, nutrition and mindfulness.

I am Learning is dedicated to ensuring its state-of-the-art learning environment supports the four pillars of their philosophy: Care, Play, Life and Earth.

- To provide the emotional and spiritual support that any parent would provide at home and be respectful of all cultures and traditions.
- To create and support children's innate desire for imaginative, inquisitive play and provide the tools and equipment that support this.
- To encourage healthy eating and mindfulness that will provide children with the foundations they need to understand and live a healthy lifestyle.
- To build an understanding of our environmental footprint and how our everyday habits affect the sustainability of our future.

I am Learning offers a four-year-old kinder program that is led by a fully qualified early childhood teacher.

The centre offers a secure and encouraging environment for children to develop autonomy, focus on respectful relationships and understand social skills.

Staff engage them with individual, small group and whole group experiences and structured group sessions for discussion times, music and language.

music and language.

**To give your child the best start in life, i am learning encourages the following five recommendations for parents:**

1. Physical movement is really important.
2. Learning includes making mistakes too
3. Provide play that is mentally stimulating
4. Nutrition matters from the first mouthful
5. Enrol your child at i am Learning Cranbourne North

If you're ready for your child to start their journey of learning with i am Learning, please get in touch to book a tour and request an enrolment pack. The team would love to meet you and your family and welcome you at I am Learning.

I am learning Cranbourne North, 8657 4918, 150 Wheelers Park Drive Cranbourne North.

## Introducing your School Principal

Wayne Haworth

Hampton Park Secondary College's innovative approach **empowers students with their learning**. Based on research, we aim to develop the 21st Century skills of critical and creative thinking, collaboration and entrepreneurial skills.

**One size does not fit all, and neither should education.** We are all unique and different with strengths and opportunities for growth. By using guided choices, we enable students to select subjects based on their passion and their learning needs. Following the **Explore Program**, the Year 7 transition year, we follow the **stage not age** approach as recommended by the Gonski Report 2018.

During the **Enhance Program** Year 8-10, like-minded students are drawn together by interest and point of learning need. Students in the senior years engage in the **Excel Program**. Our innovative curriculum model aims to engage students, enabling learning to deepen so that learning outcomes improve.

With new and exciting learning opportunities and \$16 million in facility upgrades, there is no better time to join our learning community!

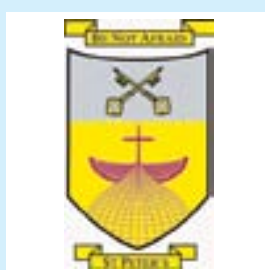

I invite you to see firsthand our unique learning program. For Principal led Tours, contact the school on 8795 9400. [www.hpvc.vic.edu.au](http://www.hpvc.vic.edu.au)

Chris Black

"Developing the skills today to thrive in tomorrow's world"

Welcome to St. Peter's College. We are a proudly Catholic community with a focus on Christ at the centre of our learning. We have a strong focus on the development of the whole person, academically, socially, emotionally and spiritually. "As a Catholic community, we aspire to lead in faith, guide with love and inspire through learning." Our learning environment provides students with the opportunity to become the best version of themselves. **21st Century learners will require a skill-set of critical thinking, effective communication skills and the ability to work collaboratively & creativity.** We strive to provide opportunities for our students to engage and excel in all of these areas.

Our desire is for students to run excitedly through our gates at Year 7 and walk out completing Year 12, with confidence, a sense of purpose, and a feeling of positivity about their future lives. When selecting a Secondary College parents must feel confident that the school can provide a stimulating learning environment across all six years. This is what you get at St Peter's College.

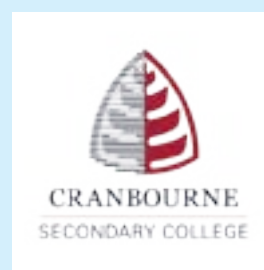

Guided Campus Tour are held on Friday mornings. Contact our Registrar Mrs Wendy Height. Come join us.

David Caughey

My name is David Caughey and I have been the Principal at Cranbourne Secondary College since the beginning of 2020.

In the short time I have been here it has been obvious to me the passion, care and commitment that our staff share for our students and their learning.

The College has invested in the development of evidence based teaching and learning methods that focus on improving student growth at every opportunity with a strong emphasis placed on understanding what each individual student needs to be successful in their learning.

The College has been recognised for their outstanding work in relation to School Wide Positive Behaviour Support (SWPBS). This approach uses a framework that focuses on matching the teaching of behaviour to meet the high expectations we share for learning achievement.

At Cranbourne Secondary College we are safe, respectful and responsible learners.

I look forward to working with the school community and sharing the excellent work that happens at Cranbourne Secondary College everyday. I would encourage parents and students to contact the College to join me for a tour so you can see first-hand the outstanding school in the heart of Cranbourne.
