Principal's Report

Dear Parents, Students and Families,

I hope this newsletter finds you all well. Term 2 has again provided our students and staff with the opportunity to show their resilience and commitment to learning and supporting one another.

Onsite or remote – our focus remains on learning and supporting our students.

We are all relieved and thankful to be back onsite after another period of remote and flexible learning. The ability for our staff, students and families to shift between these ways of working has been a credit to all. I would especially like to thank our families for their support of students and the College to make these shifts as smooth as possible.

The most recent remote and flexible learning period came at an interesting time in our assessment calendar and the ability for staff and students to adapt quickly, allowing for minimal disruption to student learning and assessment was highly commendable. Students in Years 7 to 10 have been able to complete Common Assessment Tasks (CATs) with only minor delays. Our senior students have returned to on site classes smoothly with the year 11 VCE students completing mid-year exams.

I am very proud of the work of the College staff through these challenges as they have been able to remain focused on student learning and achievement while also supporting the social and emotional needs of students.

Cross Country success

Congratulations to our cross-country runners for their recent success at the Division level. Their commitment, teamwork and stamina shone through in winning the overall first place. This was filled with numerous individual achievements across multiple year levels. A full list of student achievements is listed on page 9.

Cultural Understanding and Safety Training (CUST)

The Department of Education and Training has been providing this professional learning for schools over the last few years. The Cultural Understanding and Safety training focuses on building understanding of indigenous culture and how this understanding can support a more inclusive school environment. The training is part of the DET Marrung initiative. Cranbourne Secondary College completed this training on Friday 11th of June. While it conflicted with the return to onsite learning announcement, I felt it was important to keep the commitment to this training – COVID had previously disrupted it from occurring in 2020. Thanks to all for your understanding. See page 4 for DET information on the Statewide Marrung Initiative.

As part of the Gym and performing arts redevelopment an indigenous garden will be included in between the two areas. This aspect of the project will provide excellent curriculum development opportunities for our College.

School review and strategic plan

The school review report is now completed and will be available on the College website before the end of the term. Staff spent time on our professional learning day on Friday 11th June engaging with the report and accompanying strategic plan. I will be using this newsletter as a way of keeping the community informed of how the strategic plan shapes and informs our work at the College over the coming months and years.

Pathways and subject selection

We are heading into the course counselling and subject selection period for our middle years students. This always a busy time for our students and families as they negotiate the details of course selection. Our Year 10 students are faced with some of the bigger questions regarding their pathway direction as they select a course for their final 2 years of school. I am confident that the range of resources assembled by the College will be of great benefit for our students and families as they work through this process. I would encourage all of our students to make the most of the opportunities that the College provides to support them through this time. I would also encourage any parents or families to contact the College if they have any concerns.

Gym and Performing arts upgrade

These works are well and truly underway and are on schedule for completion as planned. For the Gym, this is early in 2022 and for the performing Arts this is July of this year. While there has been some challenges through wet and wild weather the contractors, architects and our facilities team has been working cooperatively to ensure all remains on track. When I last checked there are now the beginnings of new walls in the performing arts area and part of the huge concrete slab for the gym had been poured. I am very excited to be a part of these important works for our students.

Thanks again for your support of the College.

MARRUNG

ABORIGINAL EDUCATION PLAN 2016 - 2026

Marrung is the Wemba Wemba word for the Murray Cypress pine tree, representing branches of education and knowledge. We thank the Wemba Wemba people for allowing the use of their language in the naming of this Plan.

OUR VISION

Victoria will be a State where the rich and thriving culture, knowledge and experience of our First Nations peoples are celebrated by all Victorians; where our universal service systems are inclusive, responsive and respectful of Koorie people at every stage of their learning and development journey; and where every Koorie person achieves their potential, succeeds in life, and feels strong in their cultural identity.

WHILE WE LIVE WE GROW

At Cranbourne Secondary College we are **safe, respectful** and **responsible** learners.

A Word from our wonderful Office Staff

College Office Hours

Mon: 8:15 am – 4:00 pm
Tue - Fri: 8:00 am – 4:00 pm

General Administration Information

Face masks (applies to all school settings)

With the return to onsite learning, please remember to wear your masks at school as per the Key health advice:

- School staff and secondary school students aged 12 or older must always wear a face mask at school when indoors, or outdoors if 1.5 metre physical distancing cannot be maintained, including when attending an OSHC program, unless an exception applies.
- Children under 12 years of age and students at primary school are not required to wear face masks when at school, or when attending an OSHC program.
- For the purposes of communicating, teachers and education support staff are not required to wear face masks while teaching, but those who wish to do so, can.
- Face masks are mandatory for all school staff and school students aged 12 or older when travelling to and from school.

A fitted mask needs to be worn covering both your nose and mouth.

Collecting your child

If you need to pick up your child, please provide a note or call the office ahead of time.

Lost Property

If you have lost an item of clothing, please see Ms Arnott in First Aid.

Mobile phones are not permitted at Cranbourne Secondary College.

Please make sure your phone is turned off and is stored in your locker. View the Mobile Phone Policy on our College website:

<https://cranbournesc.vic.edu.au/our-college/policies-documents/#policies>

Key Dates

Friday 11 June	Student Free Day - No onsite or remote classes on this day
Monday 14 June	Queen's Birthday holiday - Public holiday - No school
Tuesday 15 June	Return to onsite schooling - It is expected that all students will be returning to onsite classes at the College on Tuesday 15th June. (Return date to onsite classes may change due to daily updates relating to the restrictions)
Wednesday 16 June	Information Evening - Student pathways and course selection
Thursday 17 June	Council and Finance Meeting
Friday 25 June	Last Day Term 2 (2:30pm finish)

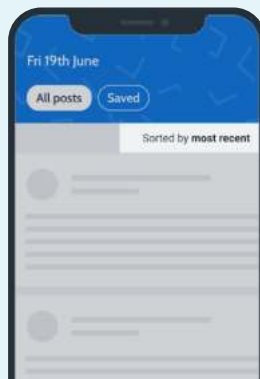

The new improved Compass App is here!

We've listened:
Changes to your Compass
App are coming soon!

This term there will be some updates to your NewsFeed, let's take a look at what's new:

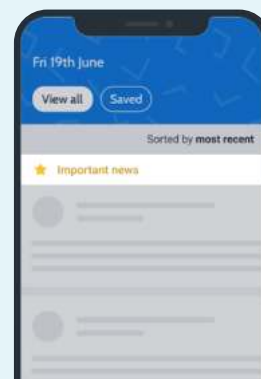

Sort by

We've redesigned your NewsFeed, making it simpler to navigate and easier to manage. You will now have the ability to sort your news by 'most important' or 'most recent', to ensure that you're up to date with all interesting and important school news!

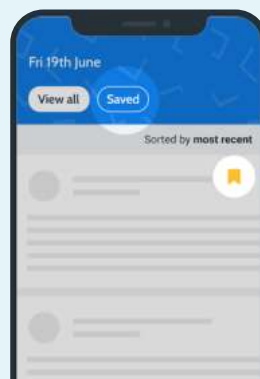

Important news

Never worry about missing an important update again! To help you stay in the loop, all priority notifications will be highlighted and flagged as 'Important news'.

Save Posts

Our saved posts help you keep track of school communications. Using the bookmark icon, you will be able to create a customised shortlist of NewsFeed posts for when you need them.

Download the 'Compass School Manager' app today!

WHILE WE LIVE WE GROW

Practice GAT (General Achievement Test)

Congratulations to all Year 12 students and Year 11 students completing a 3 & 4 subject this year on sitting the Practice GAT on Friday 21 May. The commitment from our VCE students was excellent. We had 100% attendance.

Students arrived on time, in school uniform and followed the VCAA examination procedures. Despite the three-hour session, students were optimistic and expressed their thanks for the opportunity to undertake the practice test.

Unfortunately, the GAT has been postponed by VCAA and will not occur as intended on Wednesday 9 June. A new date is yet to be determined.

Congratulations!

Renae Hartney - DUX 2020

Renae Hartney recently visited the College and collected her well deserved award.

Congratulations to Renae who was named Cranbourne Secondary College Dux for 2020.

Pathways

It has been busy down in the Pathways office with National Careers Week. Thank you to Mr Massouris and the VCAL students for putting together the videos for Careers Week, they have been fantastic.

Pathways have organised lunch time activities including guest speakers and the popular virtual reality career goggles – thanks to HeadStart. Don't forget to check out our Careers Newsletters which are posted on Compass and you can find previous copies on our webpage.

Pathways took the Year 9 students out to Monash University on Thursday 20 May. Students got to participate in a program called 'Choose Your Own Adventure'. It was an opportunity for students to gain an insight into University and was directly related to their goal setting, personal development and awareness as well as the beginning of their pathways research.

Here are a few photos from National Careers Week and our excursion.

HeadStart

The HeadStart and Pathways Teams joined together at lunchtime this week to provide some practical and fun activities to engage students in the world of careers. There was resume writing, a workshop on apprenticeships and of course the virtual reality goggles which were quite a hit for staff and students alike.

The goggles are a resource that allow students to virtually explore careers without actually having to leave the classroom or the safety of their chair.

Students are currently able to explore 22 careers on the goggles including architect, civil engineer, dentist, firefighter, park ranger and many more. The list is not exhaustive and another 20 or more careers such as carpentry, plumbing, policing, orthopaedic surgeon & nursing will be added soon.

Whilst in the virtual world student can explore a day in the life of that career and are even able to access pre-recorded questions and gain answers to the most asked questions of a person in that chosen career.

Any student that is interested in exploring careers in the virtual world are invited to visit the HeadStart office in the Careers Resource Centre and express an interest and we will be only too happy to run these sessions again. If you are looking for help or advice on anything careers oriented no invitation is necessary just pop in at recess or lunch time and the team will be only too happy to help.

Inter School Sport

Division Cross Country

Massive congratulations to our Division Cross Country Team that competed on Thursday 27th of May at Casey Fields. It was a wet and windy day but our team were fantastic!

A few special mentions to the following students who placed in the top 3 of their respective events.

Cranbourne Secondary College also were the winners of the 12-13 boys, 14 girls 15 girls and 17-20 girls age groups by collecting the most points.

Cranbourne Secondary College took out the overall win for the day! Congratulations again to all the students who came down and competed. It was a fantastic day.

12-13 boys	2nd Sahil Mohammadi
15 boys	2nd Oscar Irwing
15 girls	1st Emily Goodman
15 girls	3rd Tayah Grech
16 boys	1st Jordan Milne
17-20 girls	1st Tara Goodman
17-20 girls	2nd Juliana Utuva
17-20 girls	3rd Tamjickay Masofa

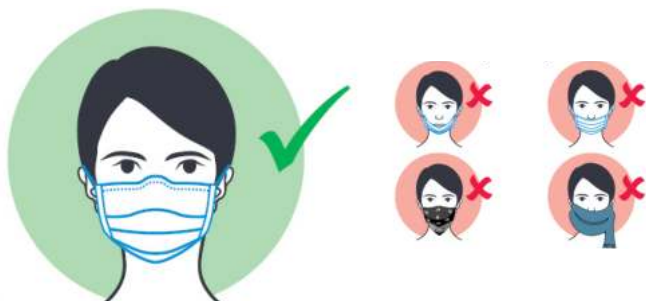

Safe: We wear face masks

Please view the College YouTube clip about being safe and wearing face coverings. The video explains what is required when onsite at the College.

- When lining up for class we put our face masks on
- When we are inside we wear face masks
- We ensure our mask is covering our nose and mouth for the entire time we are indoors
- When we are outside we wear face masks if we can't physically distance.

Please view the link below and follow the above instructions:

<https://www.youtube.com/watch?v=yM4o-a9--58>

CSC's STEM Ambassadors

Cranbourne Secondary College is happy to announce that CSC's STEM (*Science Technology Engineering Maths*) faculty now has two STEM Ambassadors from Year 10 – Jennifer Sa and Aliza Kumari.

These students will be liaising with STEM students from other schools, under the guidance of our partnership school Casey Tech, where they will talk about potential projects and STEM ideas that could be implemented at Cranbourne Secondary College.

Jennifer Sa - 10F

Aliza Kumari - 10G

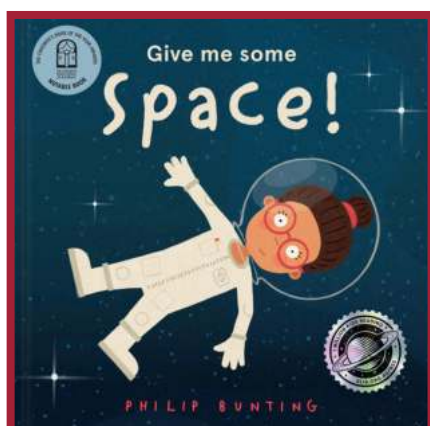

IDAHOBIT Day

International Day Against Homophobia, Biphobia and Transphobia

Students and Teachers at Cranbourne Secondary College celebrated IDAHOBIT Day (International Day Against Homophobia, Biphobia, Intersexism and Transphobia) on Monday 17 May 2021.

Our Wellbeing Team organised activities in the canteen courtyard during lunchtime, including face painting and hair braiding.

Give Me Some Space

Our Library Leader, Mrs Cousen's got into character to promote the Space theme in the Library on 19 May. Mrs Cousen's read 'Give Me Some Space', written by Phillip Bunting.

This book was read to over 1.98 million children across Australia and New Zealand simultaneously by NASA astronaut Shannon Walker from the International Space Station.

It is a story of Una, a young girl who dreams of life in Space.

SRC Board

Well done to our School Captain Tia in your labour of love in creating our latest SRC display. Our VET placement student, Esther, was a wonderful help too. Greater things are ahead of you for this year and beyond.

This is what we are here for – to give our students guidance and empowerment to find their true voice.

Out and About

EID Festival Postponed

The Eid Festival has been postponed. We are hoping to perform the event later in the year if we are able to.

RUOK Wall

The students are also working with Mr Duell to come up with a new design concept for the current RUOK wall. They are considering the theme of Inclusion and Diversity. A team of Year 9 and 10 artists will work with Mr Duell and MultiPride to bring about a new design by the end of this term.

Student Leadership and MultiPride

The SRC leaders are planning the Senior Formal. They have formed a committee that meet weekly to prepare for the event which will take place at the Sandhurst Club in Week 1 of Term 3. They have chosen the Enchanted Garden as a theme.

Events - Guide Dogs Association

The SRC are planning a fund raiser for the Guide Dogs association.

Form captains contributing to this event over a three-day period in mid-June.

Rugby Jersey

The senior students are also looking at some designs for a rugby jersey. They will be asking for feedback when PSW deliver them next week.

Multipride Leadership opportunities for students

Multipride meet on a regular basis

Where: W4

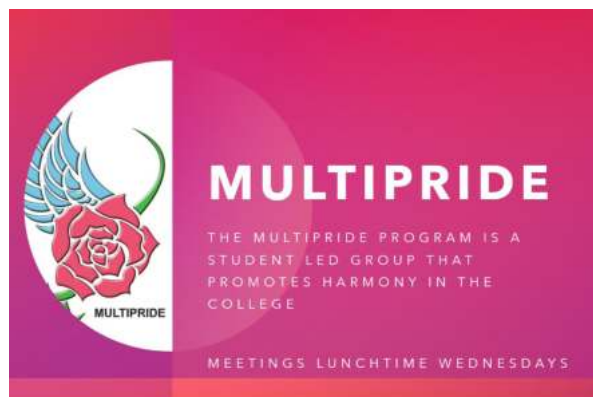

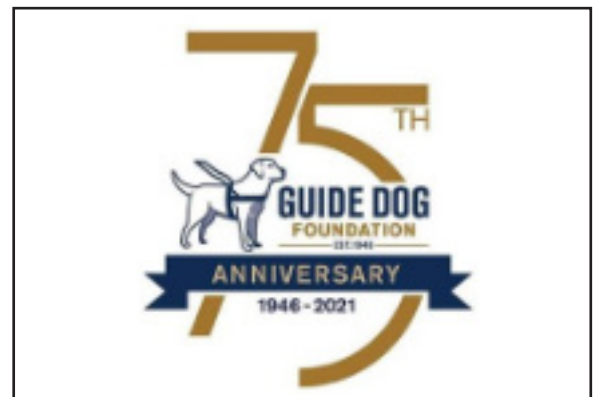

When: Every Wednesday at lunchtime

Time: 1:25 pm - 2:10 pm

Multipride promotes the following principles within the school:

1. No Bullying
2. No Racist comments or stereotyping
3. Co-operation with others
4. Making people feel welcome and safe within the school
5. To be inclusive of others and not be exclusive
6. Celebrate Multiculturalism

Please see Mr Massouris if you require further information.

Vaping and Young People

There has been a noticeable increase in the number of students "Vaping" across the broader community.

A reminder to parents that in Australia, e-cigarettes are treated in the same way as tobacco.

It is illegal to buy or sell nicotine for use in e-cigarettes and in all states and territories.

It is illegal to:

- use e-cigarettes in areas where smoking is banned
- advertise, promote or display e-cigarettes at retailer outlets
- sell e-cigarettes to people under 18 years

Electronic or e-cigarettes are devices which heat liquid (called 'e-liquid') into an aerosol (or 'vapour') which is then inhaled into a person's lungs.

E-cigarettes are usually shaped and coloured to make them look like cigarettes or other tobacco products so that when they are used they simulate the act of tobacco smoking. They can be either disposable or re-usable and in addition to the cartridge, most devices contain a battery, a sensor to activate the power from the battery, and an aerosol generator that turns the e-liquid into an aerosol. Several e-cigarettes are sweet flavoured to attract young people.

Two of the major concerns raised by health professionals about e-cigarettes, particularly in relation to young people, are as follows:

- they are promoted as a 'safe alternative' to smoking
- aggressive marketing challenges many of our key anti-smoking messages

Is vaping safe?

The research into the effects of e-cigarettes and vaping lags well behind their increasing popularity and so, at this time, we cannot really say what the long-term effects of using these devices will be.

Some of the concerns about their safety include the following:

- nicotine is addictive and toxic in all forms
- products contained in e-cigarettes are not regulated
- e-cigarette use is likely to lead to eventual smoking of traditional cigarettes
- e-cigarettes do not simply produce 'harmless water vapour' and may expose users to chemicals and toxins such as formaldehyde and heavy metals
- lung damage and disease: EVALI (e-cigarette or

vaping product-use associated lung injury) is a lung disease that has been identified in patients who vape

- e-cigarette battery failure can result in explosions and burn injuries

Although e-cigarettes may expose users to fewer toxic chemicals than conventional tobacco cigarettes, the extent to which this reduces harm to the user is yet to be determined.

It is also important to remember that the product contained in e-cigarettes are not regulated, so it is difficult to know what exactly is being inhaled.

You can find more information Re: Vaping and e-cigarettes at the following links:

- https://www.rch.org.au/kidsinfo/fact_sheets/E-cigarettes_and_teens/
- <https://www.betterhealth.vic.gov.au/health/HealthyLiving/e-cigarettes>
- <https://www.quit.org.au/resources/policy-advocacy/policy/e-cigarettes/>

Talking About Vaping With Young People

This is one of the few Australian fact sheets available and has been written by the ADF. It's just a simple one-pager about how best to have a conversation around vaping (or any drug for that matter) and it also provides a link to some basic information on vaping products.

https://cdn.adf.org.au/media/documents/Talking_about_vaping_with_young_people.pdf

What about young people and vaping?

It is illegal for someone under the age of 18 to buy e-cigarettes or e-cigarette accessories and for anyone to sell, market or promote e-cigarettes to people under the age of 18.

Gina Harrex

**The Department of Education and Training (DET)
Secondary School Nurse**

Senior (VCAL)

Intermediate Wilsons Promontory National Park camps

This year students were lucky enough to run two camps to Wilsons Prom for the intermediate VCAL students on 10th and 11th of May and 19th and 20th of May. The camp consisted of the students having to plan and organise what food they were going to cook on the Trangia's and what equipment they would need to take for the duration of the camp.

On day one students had to pack the buses with all the equipment that was needed. When students arrived at tidal river camping ground they unpacked and set up the camp. Students then proceeded to walk up Mt Oberon which has some awesome views of the landscape. It was amazing to see all the students make the trek up to the top of the mountain.

At around 5:30pm students started cooking dinner, then went on the night walk along Bidy's track to Norman Bay Beach.

The next morning, students packed up and took in some of the scenery viewing Whale Rock and the bridge over Tidal River, before traveling back to Cranbourne Secondary College.

Both camps were fantastic. The students were very well-behaved and the relationships that were developed throughout were priceless.

THE AMAZING RACE

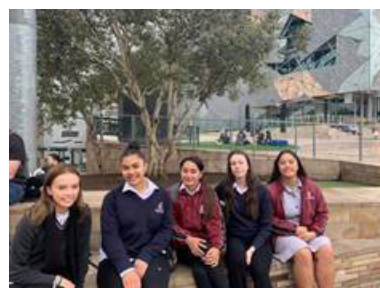

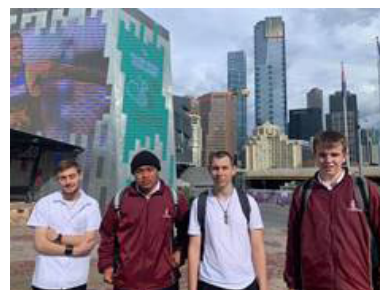

The Amazing Race was held on 25th and 26th of May 2021.

The Senior student had been working tirelessly to put on an Amazing Race for the Intermediate VCAL classes. Each senior class was matched up with an intermediate class and they designed the race around Melbourne CBD.

Intermediate students were given clues and challenges at each stage of the race, which they had to complete to move on the next challenge.

It was a fun filled day with the Intermediate students walking, running and catching trams to each check point. All students participated and it was a great day out run by the senior students.

Mr Gauci
VCAL Leader

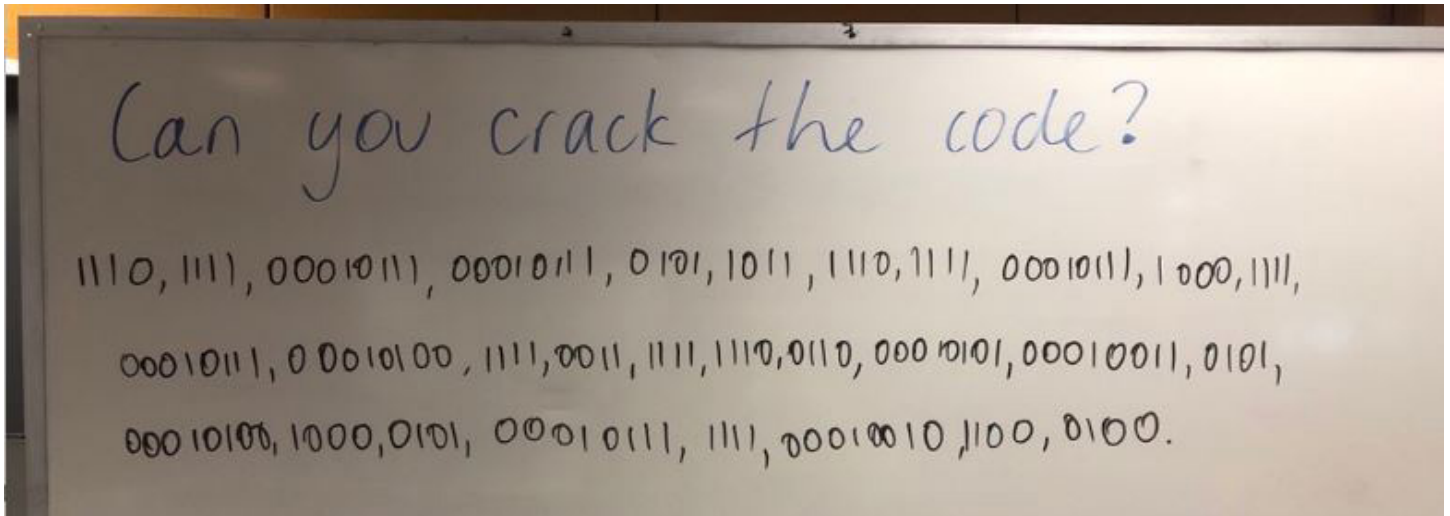

E-Learning and Digital Technologies

by Paul Evans and Lenita Engelke

Our students have been challenged and enriched by the e-learning and Digital Technologies opportunities offered at our school so far this year.

We have updated and improved our Year 7 and 8 Digital Technologies curriculum and we have provided many other opportunities for digital skill building for all of our students.

The following photos show some of the array of opportunities afforded our students so far this year, including enriching sessions at Casey Tech, and fun, challenging classroom programs.

Let's pit your own cryptography skills against the Year 7s. This is a coded message given to our Year 7 students. See if you can decipher the joke.

If you want to check out and learn some methods for decoding secret messages, here's an example from one of my classes: <https://www.youtube.com/watch?v=HjKUFZ18-jo>

If you want to learn a technique for converting base 10 numbers to binary code, you could also try this video: https://www.youtube.com/watch?v=8cD6Bie_soU

Both videos were completed with excellent assistance from the wonderful students of Mr Evans' 7C Digi Tech class during Term 2 (just before our current lockdown).

Science and STEM

Big Science Competition – Rachel Woolley

Last week over 50 students sat the Big Science Competition. It was a multiple-choice test which tested their ability to think critically to solve some science problems. All students in the academic excellence classes (7A and 8L) sat the competition as well as interested students from other classes.

The students found it challenging but gave it their best!

The following students all stayed after-school to participate so if you see any of them around commend them on challenging themselves and getting involved in extra-curricular activities.

Safe Around Schools

Getting children to school safely is everyone's job. There are lots of children, parents and cars all trying to get to the same place at the same time - with limited car parking.

While there is no quick fix, schools, council, parents and children can all work together to get everyone to school and work - safely and on time.

When there is not enough parking around your school, here are some helpful tips:

Reduce car trips – one of these options may work for you

- ✓ **Walk or ride to school.** Start the day with some fresh air and exercise and avoid car congestion.
- ✓ **Your school has a Walk to School map.** Grab a copy and find the best walking route to your school.
- ✓ **Park and walk.** Park a little further away from school and enjoy a short walk - avoiding car congestion and parking pressure.
- ✓ **Carpool with a friend.** Share pick up and drop off with friends - this reduces the number of cars around your school.

Keep the pick-up zone moving

- ✓ **The pick-up zone** allows you to stop while picking up or dropping off your child. This must not take more than two minutes. You can't park and wait for your child in your car or leave your vehicle.
- ✓ **Move as far down the pick-up zone as possible,** don't stop at the start, this blocks the traffic behind you.
- ✓ **Arrive at least three minutes after the school bell.** No children are ready before this time. Don't arrive early and park in the pick-up zone - remember, you can only stop here for 2 minutes.
- ✓ **Stagger your pick-up or drop-off times** - try to drop off slightly earlier or pick up slightly later, this will help you avoid peak times.
- ✓ **Child not there? Keep moving!** Drive out of the pick-up zone and come back through. This gives your children time to arrive and keeps the pick-up zone flowing. Don't park and wait for them.

No Parking

This no parking sign means that the area is a pick-up/ drop-off zone. You cannot leave your vehicle unattended and you cannot be parked for more than two minutes. The times may be a little different at your school, but the rules are the same.

Safe Around Schools

When you drive your children directly to school it can add to heavy traffic at drop-off and pick-up times.

Too many cars around schools can make it:

- **more dangerous for children, and**
- **hard to find a parking spot**

We can all help to reduce the traffic congestion around our school.

Other ways your family can get to or from school might be:

- park a few streets away from school and walk your child the rest of the way
- walk together from home
- ride a bike or scooter
- park at an agreed meeting place and have your older child walk to and from school by themselves
- carpool with friends, family or neighbours

Any change your family can make will be a benefit. It does not have to be every day or every school trip - if you can do any of the above just once per week, it can make a difference. If you can do it more often, it will make a bigger difference.

www.casey.vic.gov.au/safe-around-schools

Radio Astronomy - The Invisible Universe

A free opportunity for all students.

The VSSEC Radio Telescope is now available to all students in government secondary schools in Victoria.

Take complete control of the telescope to view objects of your choice. Work by yourself, with a group of friends, or your entire class.

This is the only radio telescope in the world exclusively for school students. And it's free to use! Operate the telescope from your own home after school and at weekends.

Radio telescopes work day and night and can see through cloudy skies so time and weather don't matter. Use the telescope to reveal the hydrogen in space, invisible to human eyes. View hydrogen clouds (nebulae) in the Milky Way Galaxy, remnants of supernovas (exploding stars) and the centre of the Milky Way. VSSEC astronomers are here to help.

More information is here on the VSSEC website - <https://www.vssec.vic.edu.au/radio-astronomy-the-invisible-universe/>

Or contact Ian Christie at VSSEC ian.christie@vssec.vic.edu.au

This program is part of the Victorian Challenge and Enrichment Series, a new series of FREE high-quality, extension activities for Victorian students.
